TCAIKOUSKY THOMAS II

ATLANTA, GA (912) 337-9001

tchaikouskythomas@gmail.com | https://www.linkedin.com/in/tchaikouskythomas | www.tchaikouskythomas.com

Upcoming graduate in Software Engineering with extensive coursework and hands on experience in application development using an object-oriented approach. An adaptive learner with an outstanding work ethic and strong critical thinking skills.

Software Development Skills

Java | JavaScript | Node.js | Express | React | Python | HTML | CSS | PostgreSQL | MYSQL

Education

Western Governor's University | BS in Information Technology   Jan 2016 – Dec 2020
- Coursework: Scripting and Programming Foundations, Web Development Fundamentals, Data Management Foundations, Data Management Applications, Operating Systems for Programmers, Software I: Foundational Java Concepts, Software II: Advanced Java Concepts, Mobile Application Development

DigitalCrafts | Certificate in Software Engineering   Jan 2020 – May 2020
- Software engineering training program covering full-stack development including, but not limited to JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

Software Development Portfolio

TIMS | https://github.com/tchaikousky/timsv1   May 2020
- Developed a weight base inventory management system where users can semi-automate their inventory needs.
- Technologies: React, Node.js, Express.js
- Responsibilities included designing and implementing all core functionality and user experience.

What's Happening Here | https://github.com/tchaikousky/whh-game   April 2020
- Developed an interactive game where users are displayed images and have to guess how they tie together.
- Technologies: React, Node.js, Express.js
- Responsibilities included designing and implementing all core functionality and user experience.

Fast Food Revenge | https://fastfoodrevenge.netlify.app/ | https://github.com/tchaikousky/ApiProject   Feb 2020
- Member of a 3-person development team building an informational website where users can select their 'cheat meal' and find ways to work off the calories.
- Technologies: HTML, CSS, JavaScript
- Responsibilities included integrating JavaScript for user interactivity and to fetch data from an outside API.

Professional Work Experience

Flexential | Technical Assistance Associate II | Atlanta, GA   July 2015 – Present
- Provide tiered support/trouble isolation, including corrective action for network problems for all customer facing production systems.
- Configure Fortinet Firewalls, Cisco routers & switches, and worked with the network engineering team to troubleshoot and resolve network connectivity issues.
- Maintain SLAs/FQRs by promptly responding to service request.

Joint Network Node Specialist | United States Army | Ft. Bragg, NC   May 2011 – May 2015
- Configured and operated JNN, CPN, BCN, HCLOS, and STT communication equipment.
- Configured and installed Cisco routers, Cisco switches, and Cisco Unified Communications Manager.
- Consistently monitored network and bandwidth usage with SolarWinds and other network monitoring software.
